NARRATIVE REPORT

☐ INTERIM☒ FINAL

As previously reported, the 70mm Data Block Reader was delivered in May 1966. After one maintenance visit by the contractor, the machine has been functioning very well. Minor in-house maintenance and cleaning are all that have been required to keep the instrument operational. The contractor has performed very competently under this contract, and, considering that this was somewhat a "crash" program of short duration, a "one-of-a-kind" equipment, and that they were under pressure to meet the completion date, the overall performance is raised to "very good."

All deliverable items under the contract have been delivered and accepted.
